

support of America in their efforts to overcome their tragic past and to establish a civil society based on the principles of democracy and humanism.

Therefore, in this the 70th anniversary year of the Ukrainian famine-genocide it would be fitting for the US Congress to authorize the establishment of a memorial to the victims of one of the most massive acts of genocide the world have ever known. The memorial would serve as a constant reminder of the obligation of all people to always be vigilant in the defense of freedom, justice and human life.

In urging you to participate in the hearing of the U.S. Park Service Commission Board of Directors we also request that you make the Commission aware of the unanimous support of the Ukrainian American community in Michigan concerning the proposed building of a monument in Washington, DC to the victims of the Ukrainian Famine-Genocide 1932-33.

With warm regards,
