

Kyiv, 21 May 2003

Dear Representative Levin,

I would like to express my deep appreciation and full support to your efforts in promoting a monument in Washington, DC to honor the memory of the millions of Ukrainians who were senselessly starved to death during the Great Famine in 1932-33.

I believe that the proposed initiative will gain a wide support in the U.S. Congress and will testify to the strategic nature of the Ukraine-US relationship.

The monument in Washington, D.C. will serve as a reminder that the battle for human rights is a global issue that cannot and must not be forgotten.

Please, accept, Sir, the assurances of my highest consideration

  
Anatoliy Zienko

The Honorable Sander Levin  
The United States  
House of Representatives  
Washington, DC
